I have to include a date in the link to this letter. What date should I use? I don't see one in the document itself.

Ben,

After much discussion and observation the Executive Committee has drafted and unanimously approved an opinion on Region 7's statements and activities at BMAC.

The Committee contends that Region 7 was premature in its proclamation of continued use of BMAC without any testing completed. The committee perceives Director Brooks to be dismissive of the situation and community safety. Lastly it is observed that Region 7's testing was not adequate for this situation and was not designed to test the findings of the Just Moms STL group.

The letter and accompanying documentation is attached to this correspondence.

Thank you as always for your role as liaison,

Douglas Clemens
